

The Bonfire

The Quire family had a new allotment to grow fruit and vegetables on. They had been inspired by seeing a gardening show on the telly. The Quires were very excited.

When they went to look at the allotment they saw it was a big mess. "This is dire" said Tess, "It is all covered with old tyres and bits of wire and wood."

The family worked together to clear the allotment. They took the wire and tyres to the dump in a truck they hired.

They made a big pile of the wood so they could have a bonfire. They were very tired after all their hard work, but pleased that soon they could toast marshmallows.
