PIGEON CAUSES CHAOS

BY JIMMY MCGEE

YESTERDAY, IN THE HEART OF WASHINGTON D.C AT MIDDAY. A STRANGE, UNIDENTIFIED FLYING OBJECT STARTED SHOOTING LASERS DESTROYING EVERYTHING IN ITS PATH.

IT IS SAID THAT THE UNIDENTIFIED FLYING OBJECT WAS A SUITCASE BEING CONTROLLED BY AN EMPTY HEADED PIGEON.

THE PIGEON FELL INTO A RANDOM SUITCASE AND STARTED FLYING AROUND SHOOTING LASERS AND ACCIDENTALLY LAUNCHED A MISSILE.

LUCKILY, A HUMAN ATTACHED TO THE SUITCASE FIRED A SMALL MISSILE TO DESTROY THE ROCKET.

THE PIGEON FELL INTO THE SUITCASE AS IT WANTED TO EAT A YUMMY FRESHLY BAKED BAGEL. WE THINK THE PIGEON FIGURED OUT THE BUTTONS IN THE SUITCASE TO DESTROY CARS AND BUILDINGS WITH LASERS.

IT WAS REPORTED THAT IT WAS THE BAGEL THAT LANDED ON THE BIG RED BUTTON WHICH LAUNCHED THE MISSILE OUT OF A MONUMENT.

THE OWNER OF THE STRANGE SUITCASE WAS A MAN WHO WOULDN'T TELL US HIS JOB. "THAT PIGEON IS AN ABSOLUTE NUISANCE!" HE SHOUTED, "TRYING TO STEAL MY BAGEL!" A WITNESS WHOSE CAR WAS DESTROYED SAID ANGRILY "WHOEVER DESTROYED MY CAR OWES ME A LOT OF MONEY!"

THE POLICE ARE STILL WORKING OUT HOW THIS HAPPENED. SCIENTISTS BELIEVE THIS ROCKET WAS LAUNCHED TOWARDS MOSCOW, RUSSIA. PEOPLE ARE TRYING TO RAISE MONEY TO PAY FOR THE DESTRUCTION.

FINALLY, EVERYONE IS WONDERING WHO THE MAN WAS AND WHAT HE WILL DO NEXT!

The Washington Pigeon Opinion: I think that you shouldn't feed pigeons because it's not good for their health. It is my belief that pigeons are starting to rely humans for food. Did you know that pigeon droppings rust iron and make old stone crumble? In my opinion, we must not give pigeons food because they carry diseases in their droppings and their poo looks really messy in town centers. One reason why you shouldn't feed pigeons bread is that it could block up their digestive system. In conclusion, pigeons must not be fed because it is bad for them and us.
