

REASONING AND PROBLEM SOLVING															
LO: To be able to compare numbers of migrants.													What I think	My teacher thinks	
<i>I can remember to:</i>															
read the question carefully.													<input type="radio"/>		
look at the names of the tribes on the left-hand side of the table.													<input type="radio"/>		
find the right year along the top of the table.													<input type="radio"/>		
use the expanded column method to add.													<input type="radio"/>		
use the two-jump number line or column method to subtract.													<input type="radio"/>		
DO ME FIRST	3.4 + 1.7 =													<div style="border: 1px solid black; width: 100px; height: 30px; margin: 0 auto;"></div> <p style="text-align: center; margin: 0;">1 mark</p>
