

MONDAY – LEVEL 1 FLUENCY

- 1 Match each equation to the part-whole model it represents.

$$y + 7 = 18$$

$$2y + 4 = 18$$

$$3y = 18$$

- 1) Rhys uses blocks and counters to help him form equations. Copy and complete the equations for the following representations. The first one has been completed for you.

a)

?	+1		+1	+1	+1	+1
	+1	+1		+1	+1	+1
$x + 3$			=	8		

b)

?	+1	+1		+1	+1	+1
	+1	+1	+1	+1	+1	+1
			=			

c)

?				+1	+1	+1
	+1	+1		+1	+1	+1
			=			

- 2 A shop sells these items.

- a) The total cost of a scarf and a book is £17
Form an equation to represent this information.

- b) The total cost of 2 packets of balloons and a hat is £11
Form an equation to represent this information.

- c) The total cost of a pair of headphones, a scarf and 2 boxes of marbles is £39
Form an equation to represent this information.
