

Y5 Varjak Paws Maths Homework Spring 1 Week 1

Cubes/Cuboids

$5 + 4 = 9$
$5 + 6 = 11$
$6 + 7 = 13$
$8 + 7 = 15$
$8 + 9 = 17$

Learn Its: Step 8

Timetables

4. The timetable below shows the times of underground trains. Use the information in the table to answer the questions.

	22A	22B	23A	23B
Common Place	8:17	8:28	8:39	
Tree Hill	8:29		8:51	8:58
Market Square	8:41	8:41		9:17
Butler Grove	9:04	8:54	9:12	

- How long is the journey from Common Place to Butler Grove on train 22B?
- Which station does train 23A not stop at?
- Lois arrives at Market Square at 8:41. Which train did she get from Tree Hill?

HW/Ed

5. Use the information in the timetable to work out which of the following statements are correct.

	Gareth	Kelly	Abdul
9:05 - 9:45	Tent Assembly	Fire Making	Fire Making
10:20 - 10:50	Raft Building	Wood Craft	Tent Assembly
11:45 - 12:25	Wood Craft	Cooking	Cooking
3:05 - 4:35	Fire Making	Tent Assembly	Raft Building
6:50 - 7:35	Cooking	Raft Building	Wood Craft

- Kelly and Abdul are together for more than one activity during the day.
- Fire Making is the activity that lasts the longest for Abdul.
- Kelly starts Tent Assembly at 4:35pm.

6. Zeeshan is going on holiday to France and is deciding which flights to take.

Flight code	Depart from U.K.	Arrive in France	Depart from France	Arrive in U.K.
XJ200	11:00am	11:58am	4:12pm	8:10pm
BC377	1:09pm	2:05pm	6:03pm	6:54pm
AB300	8:13pm	9:16pm	11:04pm	11:56pm

I should take flight BC377 to France and return on flight AB300 because they are the quickest.

Do you agree with Zeeshan? Explain your answer.
