

Y5 Varjak Paws Maths Homework Autumn 2 Week 3

Cubes/Cuboids

Learn Its: Step 6

$$9 + 9 = 18$$

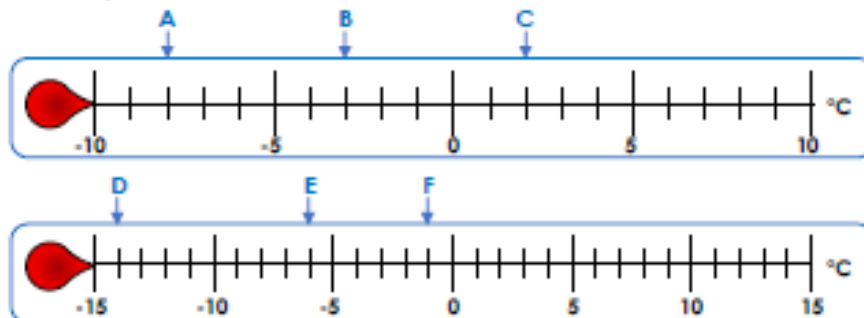

$$8 + 8 = 16$$

$$7 + 7 = 14$$

$$6 + 6 = 12$$

Negative Numbers

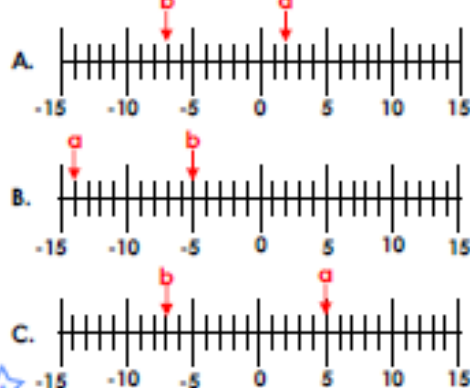

4. Identify the temperatures marked on the thermometers.

Order the temperatures in descending order.

5. Match the starting temperature to the temperature change and its corresponding number line.

Starting Temperature (Point a)

2°C

-14°C

5°C

Temperature Change (point b)

-12°C

-9°C

+9°C

6. Steph is working out how much money she has left after her bills are paid in April, May and June. Mark her balance on the number line for each month.

A. In April, her balance is an even amount between -£20 and -£28

B. In May, her balance is £6 more than in June.

C. In June, her balance is £12 less than in April.

Is there more than one possible answer?
