

Learn Its

$$5 \times 4 = 20$$

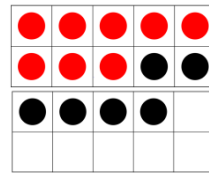

$$6 \times 4 = 24$$

$$7 \times 4 = 28$$

Addition Learn Its

$$8 + 6 = 14$$

$$6 + 8 = 14$$

I can add and subtract multiples of 100.

5a. Starting with the number below each time, complete the calculations.

100s	10s	1s

- a. + 600
- b. + 400
- c. - 200

VF

6a. Find the number covered by the splat.

$$546 + \text{splat} = 946$$

VF

7a. Calculate the following:

- a.
- b.
- c.
- d.
- e.

VF

8a. Add 200 each time to complete the sequence.

5				805
---	--	--	--	-----

VF

Reasoning

4a. Match the question to the correct answer. Which is the incorrect answer? Explain how you know.

a

Add 400 to 465

388

b

Subtract 200 from 298

865

c

Subtract 600 from 988

198

R

Problem Solving

5a. Johnny is finding different calculations to make a number by adding or subtracting a multiple of 100.

My number is 526.

Johnny

Give 3 possible calculations that would give this answer.
