

Instructions for Charanga YUMU

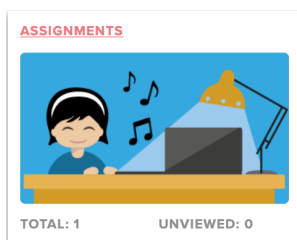

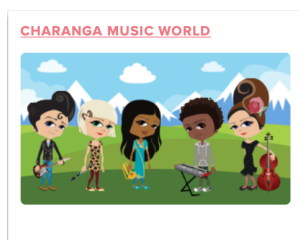

Welcome to your interactive music learning! You should all have been sent your individual login details. To log on go to: <https://sheffieldmusichub.charanga.com/yumu>

The first thing I suggest you do is go to My Account in the top right of your screen

There you will be able to change your login details to something much easier to remember!

On your home page you will see 2 options.

Assignments

In this section I am going to set you some work. In the first assignment I have set there are some listening games, a rhythm clapping game and a song about the Viking long ships. Keep an eye out for new assignments as I add them.

I will also be able to set you some extra pieces for your instruments in here if you have one at home to practise on.

Charanga Music World

This is an interactive world for practising your instrument where you can design your avatar and earn coins by working through the world map.

The first thing you will need to do is select Violin world so press

+ Add a world

You will then be able to work through watching videos and trying out activities on your instrument if you have one at home. If you don't, you still might enjoy refreshing your mind!
