Lilo and Stitch

FILM REVIEW

Have you seen "Shrek?" Did you enjoy it? Have you seen "Ice Age?" Did you enjoy it? Have you seen "The Lion King?" Did you like it? If you said yes to any of those films then you will LOVE "Lilo and Stitch!" It is a Disney triumph - songs, dances and a couple of cute kids!

The most daring thing about this film is the characters. There is Lilo who is Hawaiian, living with her overworked sister. She is having problems at school. She dreams for her life to be normal - enter Stitch! Stitch has managed to escape from his country and has crashed landed onto Earth. Lilo adopts him but their relationship is a bit spiky! Working together they come to love and respect one another.

A funny, strange and heart-warming tale. It is a film that will be enjoyed by youngsters and parents will enjoy it too. By the end of the film you will be wanting to own your own Stitch!
