

Group 1:

-y to -ies endings

We've looked at using apostrophes for possession this week and have spotted that changes to spelling for plurals needed to be recapped.

Please can you practise these spellings for next week?

If the word ends in a vowel (a,e,i,o,u) + y then we just add s (boy → boys, journey → journeys).

However, if the word ends in a consonant + y then we need to change to 'y' into 'ies'.
