

Maths Homework – Y3 Charlies – 31/01/2020

Learn Its!

This week's *Learn Its* to practise are:

$$1 \times 8 = 8$$

$$2 \times 8 = 16$$

$$3 \times 8 = 24$$

$$4 \times 8 = 32$$

Try saying them in different voices (scared, happy, shout, whisper etc.)

How many times can you say each fact in 1 minute?

Telling the Time 1

We'll be looking at time for the next few weeks. Therefore, for your maths homework this week, I would like you to practise using digital and analogue clocks to tell the time in different ways. For example, quarter to four in the afternoon can also be referred to as 3:45pm.

Look at the clocks that show the start and finish time of a race. Complete the sentences.

hour hand $\xrightarrow{\text{just after}}$

minute hand $\xrightarrow{\text{pointing to}}$

The time is _____

hour hand $\xrightarrow{\text{just before}}$

minute hand $\xrightarrow{\text{pointing to}}$

The time is _____

How long did the race last?
How do you know?

It would also be good practise for you to use a calendar to work out how many days there are until important events.

e.g. How many days is it until Pancake Day?

Draw the hands on the clocks to show the feeding times for the triceratops.

The hour hand is just after 4.

The minute hand is pointing to 3.
The time is _____

The hour hand is just before 7.

The minute hand is pointing to 9.
The time is _____

The hour hand is just after 12.

The minute hand is pointing to 3.
The time is _____

The hour hand is just before 10.

The minute hand is pointing to 9.
The time is _____
