

Maths Homework – Y3 Charlies - 8/11/2019

Learn Its!

This week's *Learn Its* to practise are:

$$5 + 7 = 12$$

$$5 + 8 = 13$$

$$5 + 9 = 14$$

$$6 + 7 = 13$$

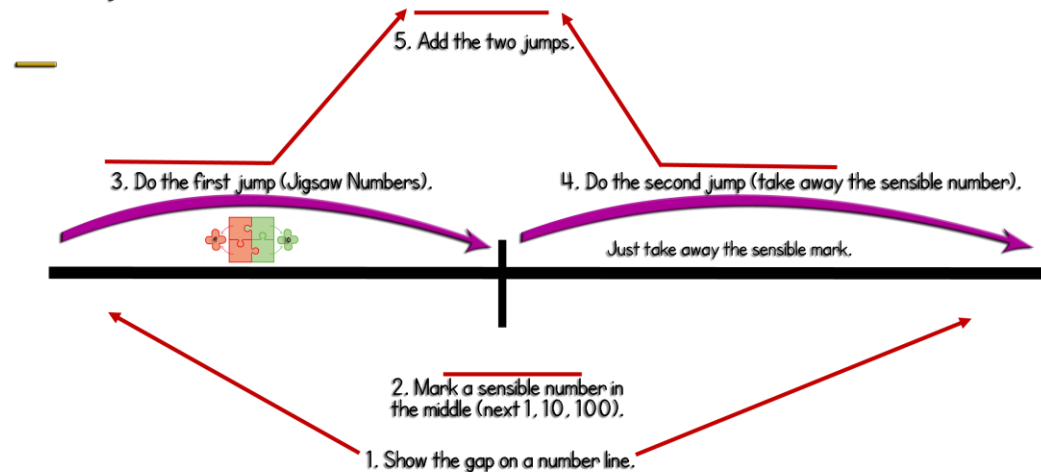

$$6 + 8 = 14$$

Try saying them in different voices (scared, happy, shout, whisper etc.) How many times can you say each fact in 1 minute?

Two-jump Numberline Subtraction

In Year 3, we teach children to use a numberline for subtraction of up to three digit numbers. As you can see, $46-17=$ becomes very easy once we work out the gap between 17 and the next sensible 10 (or 100, if crossing a hundred mark):

Subtraction: **Two-Jump Numberline**

Please can you practise numberline subtraction this week?
Be very careful with the 'next sensible number'.

$$45-14=$$

$$95-37=$$

$$68-42=$$

$$87-68=$$

$$114-47=$$

$$134-83=$$

$$123-67=$$

$$178-86=$$

$$145-76=$$
