

Maths Homework Spring 2 Week 1

Learn Its!

Can you remember our Learn Its from last half term?

$$4 + 2 = 6, 5 + 2 = 7, 6 + 2 = 8,$$

$$7 + 2 = 9, 9 + 2 = 11$$

Write the addition sentence on a piece of paper and the answer on another

Now find a partner and play the pairs game.

1. Turn all the cards upside down.
2. Take turns to turn over 2 cards.
3. Try to find a matching pair.
4. The person with the most pairs wins

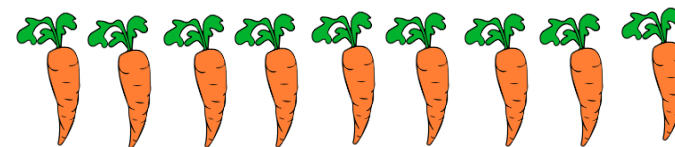

Division

Before the half term holiday we were learning about division.

Can you remember how to divide objects into groups?

What is 6 shared by 2? _____

What is 9 shared by 3? _____
