

Coming into to School

Social Story

My name is _____ and I

am _____ years old.

This is me..... (You can draw a picture of yourself here and something you like)

I go to school at Walkley Primary School.

In the mornings I come to school with my grown up.

I say "see you later or good bye" to my grown-ups, give them a hug and walk into school. My grown-ups go home or to work.

When I walk into school:

One of my class helpers will meet me at the door.

This will be(write names)

When I go into the classroom

-I put my coat on my peg.

-I choose my meal by putting my face on the board or by my teaching asking me the meal I want.

-I write my name.

-I see my friends. My friends will be very happy to see me.

Sometimes I might feel sad when I say goodbye to my grown-up. It's ok to feel sad. Everyone feels sad sometimes. It's ok to cry. Your helpers in school will look after you. They might give you a tissue or a hug or find something to keep you busy. This will help you to feel better.

If you do feel sad you can remember

- School is safe and fun
- My grown-ups want me to go to school as they know it's a good place to be.
- I can get busy in school and play with my friends.
- My grown-ups will come to pick me up later.

Soon I will get used to coming into Walkley.

Remember your teacher and teaching helpers are there to help you to be happy, learn lots, stay safe and have fun at school.
