Website Migration and Improved Safety for our school community

Dear Parents and Carers,

We are writing to let you know that our school website has migrated to a new website. The site will continue to use the same website address, but will be hosted on an improved platform that makes the site easier to maintain and more user-friendly on a range of devices (phones, tablets and desktops).

As part of this upgrade, we have introduced protected class blogs area where you will be able to view and follow your child's learning as you have done previously. Access to this area will be restricted so only authorised parents and carers can see class posts and pupil work. This is part of the school's ongoing commitment to online safety and to providing you with a safe way to engage with classroom activities. Currently Juniper, the website provider, are finalising the functionality and usernames and temporary passwords will be shared once this is confirmed.

Please note that the public-facing parts of the website (the pages visible to anyone visiting the site) will not include pictures of pupils or staff. Any images or pupil-related content shared in the protected class blogs will be accessible only to authorised users, in line with our safeguarding and privacy policies.

What happens next:

- We will share further details shortly about how to access the protected class blogs, including any login or registration steps once we have the go-ahead from Juniper.

- Existing consent preferences regarding images or online publication of your child's work will be maintained when creating content for the school website. If you would like to review consent for your child/ren please contact the school office on enquiries@walkley.sheffield.sch.uk

If you have any questions in the meantime, please contact the school office at the same address.

Thank you for your support as we make these improvements to better share pupils' learning while maintaining high standards of privacy and online safety.

Yours sincerely,

Mr Wallis

Headteacher
