'Enjoyment, Achievement and Learning for life...'

11th November 2025

Dear Parents and carers of Walkley Primary School

Re: Measles, Chicken Pox and Shingles

Please may we ask for your cooperation in a vitally important matter? One of our pupils is receiving medical treatment for cancer. Due to the chemotherapy treatment they are undertaking, they are at an increased risk of infection. This could be particularly serious if exposed to measles, chicken pox or shingles.

Do please let us know immediately if you suspect that your child has chicken pox. It is also very important that you let us know if anyone in your household has shingles. If you suspect your child has measles you should let us know in school immediately.

Your own child is not at any risk whatsoever from this situation. However, the health and wellbeing of our pupil undertaking treatment may be at serious risk, so we depend on the co-operation of all parents. Our pupil will benefit so much from being around their friends at school, when able so your vigilance in this matter will significantly support their inclusion at Walkley. Thank you for your support and I'm sure you will join us in sending love and kind wishes to our pupil and their family.

If you or your child would like any support on hearing this news, do please reach out to us. The Inclusion team are working with the class teams to support all children in school at this time.

Yours sincerely,

Christopher Wallis

Headteacher
