'Enjoyment, Achievement and Learning for life...'

4th May 2020

Dear Parents/Carers,

We have recently been approached by two students from the University of Sheffield to ask for our involvement with an interesting local project they are currently working on together with the Walkley Community Centre. The rationale for the project is to provide some light relief for the community and provide children with some fun activities to do.

The theme of the project is '**Walkley Past, Present and Future**' and involves making an E-Book about and for the community of Walkley. The request is for you to send in any photographs, testimonies and drawings about Walkley. Any form of creativity is encouraged and they will accept drawings, stories, or even arts and crafts displays. You could take some interesting photos while on a daily walk, or you could make some creations at home. An example they have provided is to create a story, drawings and/or other creations of what Walkley will look like in 2100. This example links in with the time capsule we have planned for the new building that many pupils provided fabulous ideas for over February half term.

If you would like to make a contribution to this project, please send documents or photos to WalkleyEbook@gmail.com by the latest **20th May**. You will also need to fill out and send the **consent form** with your contributions. Any questions about the project can also be directed to this email address. Can we request that you also upload your contributions to the Walkley Primary School [google form](#) so we're able to see your contributions and share these on our website.

We hope you enjoy getting involved in this project and look forward to seeing your contributions.

Yours faithfully,

Sally Travis
