

Dear parents of Walkley Primary School

During the current situation Zest is doing its best to provide a variety of support for our local community. As a Community Hub they are organising a number of services that can be accessed by those in need of some help. Go to their website for more information www.zestcommunity.co.uk

To help keep children occupied, the Facebook group [Zest Children and Families Group](https://www.facebook.com/groups/491910611486723/?ref=group_header) will be sharing daily activities, games and worksheets. This group is also a place for parents to connect and share any support or advice they want to

https://www.facebook.com/groups/491910611486723/?ref=group_header

Zest Homework Club Online – The team at Zest will be organising volunteers to support children to complete their school work via video-chat. If you are interested in your child(ren) accessing this support please send an email to **David.mcneil@zestcommunity.co.uk** with the subject **Homework Club Online**. Please include in your email the names and ages of the children that you want support for, and if there is a specific subject they want help with.

We understand that people may be concerned about providing enough food for themselves/their families at this time. If you or someone you know is in need of some help please email Megan.flynn@zestcommunity.co.uk with your details.

Very best wishes

Megan
